

STACKSTONE SLEEPERS

- Fantastic in any outdoor setting, they're versatile enough to be a statement feature or a reliable retaining wall.
- Modern aesthetic, perfect complement to any new home design

SAWMILL SLEEPERS

- Look great with any garden design.
- They are designed as a direct replacement of traditional timber sleepers; they look like wood & have the durability of concrete that will last forever.
- Perfect for rural settings

SMOOTH SLEEPERS

- This design adds a touch of sleekness to your outdoor space.
- Their versatility makes them the perfect match for any garden design.

HAMPTON SLEEPERS

- These beauties give off the illusion of perfectly stacked blocks and are an ideal addition to any coastal themed outdoor space.
- They are versatile enough to fit seamlessly into nearly any landscape design.

CONCRETE SLEEPERS

Why Choose Them?

- Concrete Sleepers won't rot over time like wood sleepers.
- Concrete Sleepers aren't impacted by pests such as termites.
- They won't wilt under the pressure of heavy loads.
- Concrete Sleepers are extremely durable for every climate.
- Straight forward installation. No need for footings like block work.
- Low maintenance - Set and forget

ASHTON SLEEPERS

- Looking to elevate your outdoor space with a contemporary and chic edge? Look no further than Ashton Concrete Sleeper!
- Engineered for both statements feature walls and reliable retaining walls.

ROUGHSAWN SLEEPERS

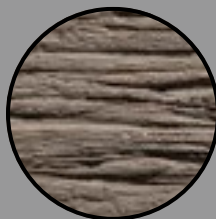

- Roughsawn Sleepers are one of the most popular sleeper designs and look great with any garden design.
- They are designed as a direct replacement of traditional timber sleepers; they look like wood & have the durability of concrete that will last forever.
